

Type on a Path w/ Adobe InDesign 2.0

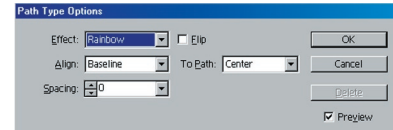

4. To edit type characters, drag through the type on the path and use the character palette to change the attributes. Choose **Window > Type > Character**.

5. To apply a path type effect:

Use the selection tool or type tool, select the path type.

Choose **Type > Type on Path > Options**.

Choose one of the following in the Effect menu and then click **OK**:

type in a circle

A. Rainbow effect

type in a circle

B. Skew effect

type in a circle

C. 3D Ribbon effect

type in a circle

D. Stair Step effect

type in a circle

E. Gravity effect

For another neat effect, try using the flip option in the Type Option Effects box.

type around the hills type on the bumps la la la la la

type around the hills type on the bumps la la la la la

There are so many things to consider with text options. Just play and see what happens.
